

AHORA Inc General Class Rules

1. **Width:** The maximum width of a car shall be 34.0 millimetres (1.3385 inches).
2. **Length:** The maximum length of a car shall be 80.0 millimetres (3.1520 inches).
3. **Wheelbase:** The minimum wheelbase shall be 31.75 millimetres (1.250 inches)
4. **Guide Pin:** Only one guide pin shall be allowed.
5. **Chassis:** No broken chassis shall be allowed to enter a race.
6. **Front Track:** The maximum allowable lateral movement of the front axle is 0.8 millimetres (0.0315 inches).
7. **Replacement Parts:** During a race any individual part of the car may be replaced. The chassis and body shall not be considered individual parts.
8. **Body:** Body shall be fitted to car at all times in all race events. Any car with an interfering body shall not be allowed to continue to race. Body shall be a replica of an actual car and shall be painted.
9. **Tyres:** Cars shall be equipped at all times with a maximum of four tyres, two front and two rear, mounted in the normal axle position, that touch and roll when checked on a test track with no or low rails.
10. **Legality Of Car:** The responsibility to prove the legality of a car shall rest with the driver or entrant.
11. **Post-race Technical Inspection:** Every car entered may be required to submit to a post-race technical inspection as requested by the AHORA Inc Officials in charge of the race. Failure to comply shall result in immediate disqualification of the car and entrant and forfeiture of entry fees paid for that race/event.
